Although they have no physical characteristics, intangible assets have value because of the advantages or exclusive privileges and rights they provide to a business. Intangible assets generally arise from two sources: (1) exclusive privileges granted by governmental authority or by legal contract, such as patents, copyrights, franchises, trademarks and trade names, and leases; and (2) superior ...

### Intangible Assets | Financial Accounting

35-1 The accounting for a recognized intangible asset is based on its useful life to the reporting entity. An intangible asset with a finite useful life shall be amortized; an intangible asset with an indefinite useful life shall not be amortized. 35-2 The useful life of an intangible asset to an entity is the period over which the asset is expected

### CHAPTER 12

The amount of amortization expensed for a limited-life intangible asset should reflect the pattern in which the asset is consumed or used up, if that pattern can be reliably determined. If the pattern of production or consumption cannot be determined, the straight-line method of amortization should be used.

### CHAPTER 12

Question 11–17 Impairment of the value of property, plant, and equipment and intangible assets results when there has been a significant decline in value below book value. For property, plant, and equipment and intangible assets with finite useful lives, GAAP requires an entity to recognize an impairment loss only when the undiscounted sum of estimated future cash flows from an asset is less ...
