Since I wrote Thinking in Pictures, brain imaging studies have provided more insights into how the brain of a person on the autism/Asperger spectrum processes information. Nancy Minschew at Carnegie Mellon University in Pittsburgh has found that normal brains tend to ignore the details while people on the autism spectrum tend to focus on the details instead of larger concepts.

THINKING IN PICTURES: Autism and Visual Thought

Visual thinking, also called visual/spatial learning or picture thinking is the phenomenon of thinking through visual processing. Visual thinking has been described as seeing words as a series of pictures. It is common in approximately 60–65% of the general population. "Real picture thinkers", those who use visual thinking almost to the exclusion of other kinds of thinking, make up a smaller percentage of the population. Research by child development theorist Linda Kreger Silverman ...

Thinking in Pictures : My Life with Autism

The title Thinking in Pictures: And Other Reports From My Life With Autism would suggest a first-person account of an individual's experiences with autism. In fact, the book is much more. In it, Temple Grandin, PhD, provides not only a vivid account of her life, but also an extensive overview of the state of knowledge about autism.
